A. COURSE INFORMATION

COURSE NUMBER	SOCSC 13			NO. OF UNITS	3
COURSE TITLE	THE ECONOMY, SOCIETY, AND SUSTAINABLE DEVELOPMENT				
PREREQUISITE/S	SOCSC 12				
DEPARTMENT/ PROGRAM	Development Studies Program			SCHOOL	RGLSOSS
SCHOOL YEAR	2025-2026			SEMESTER	Second
INSTRUCTOR/S	Asst. Prof. Genesis Kelly S. Lontoc				
VENUE	F-113	SECTION	A	SCHEDULE	MTH 8am-930am

B. COURSE DESCRIPTION

This course focuses on deepening students' understanding of the processes of economic and social development, as well as their knowledge of concepts and skills in addressing poverty, exclusion, inequality and vulnerability in the context of the Philippines. Theories and measures of marginalization will be tackled, and alternatives to addressing the challenge of poverty discussed. The course will draw upon the concept of sustainable development as a framework for ensuring that problems related to poverty and marginalization are addressed in ways that are socially-just and environmentally sustainable.

Throughout the course, and as part of their National Service Training Program (NSTP), students will be provided with opportunities to observe and participate in programs and projects that address poverty-related issues through fieldwork activities with partner government and non-government agencies, people's organizations and other civil society groups.

The course complies with the Commission on Higher Education (CHED) requirements on the teaching of concepts on agrarian reform, taxation, and population and demography.

WHERE IS THE COURSE SITUATED WITHIN THE FORMATION STAGES IN THE FRAMEWORK OF THE LOYOLA SCHOOLS CURRICULA	
	FOUNDATIONS: Exploring and Equipping the Self
	ROOTEDNESS: Investigating and Knowing the World
☒	DEEPENING: Defining the Self in the World
	LEADERSHIP: Engaging and Transforming the World

C. COURSE LEARNING OUTCOMES

Alignment of the Course to the Core Curriculum Learning Outcomes

CCLO 1	CCLO2	CCLO3	CCLO4	CCLO 5	CCLO 6	CCLO7	CCLO8
CLO3a CLO3b	CLO1, 1d,1e	CLO1, 1b,1c CLO2, 2a,2b,2c	CLO2c, CLO3, CLO3c	N/A	CLO2b, CLO3	CLO3, 3a,3b, 3c CLO2b, 2c	CLO3, CLO3c

By the end of this course, students should be able to:

COURSE LEARNING OUTCOMES	
COMPETENCES	KNOWLEDGE, SKILLS, ATTITUDES
CLO1: Apply the different development parameters and paradigms with regard to how they define, account, and relate critical socio-economic problems.	● CLO1a: Define all key concepts and principles as listed in this syllabus. (K) ● CLO1b: Identify the methodologies used in the study of poverty, and sustainable development. (K) ● CLO1c: Expound their understanding of well-being and sustainability in relation to different concepts and frameworks in understanding poverty and inequality. (K) ● CLO1d: Utilize different social and economic measures and indicators in measuring progress and development at the household, community, the national and the global level. (S) ● CLO1e: Utilize a data-centered, interdisciplinary development approach in examining socioeconomic issues (A)

CLO2: Demonstrate the application of interdisciplinary and scientific methodologies and frameworks in analyzing contemporary socioeconomic issues, particularly on poverty and sustainable development.	● CLO2a: Demonstrate their understanding of the market economy and the role of economic behavior in contributing to underdevelopment and to solving the problems of poverty and inequality. (K) ● CLO2b: Evaluate and propose different programs and projects to address poverty and inequality issues in the light of the principles of sustainable development and social justice. (S) ● CLO2c: Examine contemporary poverty and sustainability issues affecting Philippine society. (A)
CLO3: Develop a sense of commitment and vocation towards advocacies that promote poverty reduction and sustainable development especially in marginalized sectors and communities.	● CLO3a: Provide informed reflection on the question, "Amidst all the plenty, why is there so much poverty and inequality, and a lack of sustainability programs?" (A) ● CLO3b: Relate through case studies or fieldwork-based projects the concepts of poverty reduction and sustainable development to their own NSTP community experiences. (A) ● CLO3c: Understand the local context of communities when identifying development issues (K)

D. COURSE OUTLINE and LEARNING HOURS

Course Outline	CLOs	References	Estimated Contact Hours / Learning Hours
January 7 to 16 Module 0: Course Introduction - Course Syllabus - Service-Learning Orientation	——	Canvas Materials	1.5 / 3

Final Integrated Output - Part 1 - due on March 19 - Part 2 – due on April 23	 10% 20%	CLO 1, 2, 3

RUBRICS:

Final Integrated Output

I. Service-Learning Project Plan Rubric – FIO Part 1

	Criteria	Poor (1-2 pts.)	Below Average (3-4 pts.)	Average (5-6 pts.)	Above Average (7-8 pts.)	Excellent (9-10 pts.)
1	Project Understanding and Rationale (Evaluates the clarity of the project's purpose, the understanding of the issues to be addressed, and how well the project goals align with these issues.)	The project purpose, understanding of issues, and alignment of goals are unclear and disjointed.	Some understanding of issues is present, but the alignment of project goals is weak.	The project purpose and goals are clear, but the understanding of issues could be improved.	Clear understanding of issues and solid alignment of project goals. However, minor details may lack clarity.	The project purpose, understanding of issues, and alignment of goals are clear, detailed, and insightful.
2	Project Design and Alignment (Assesses the logical planning of project objectives, their alignment with academic disciplines of the team members, and the relevance of the project to the Sustainable Development Goals.)	The project objectives, alignment with academic discipline, and relevance to Sustainable Development Goals are not evident or poorly presented.	Some alignment with academic discipline and Sustainable Development Goals is present, but project objectives are weakly defined.	Project objectives are generally clear and there is fair alignment with academic discipline and Sustainable Development Goals.	Good alignment with academic discipline and Sustainable Development Goals; project objectives are well-defined.	Excellent alignment with academic discipline and Sustainable Development Goals; project objectives are clearly and comprehensively defined.
3	Theoretical Basis and Methodology	The project does not apply theories from the course, roles and	Theories from the course are mentioned, but the connection to	The project uses theories from the course and roles and	The project effectively applies theories from the course, roles and	The project clearly and effectively applies theories from the

	(Gauges how well the project applies theories or paradigms from the course, the defined roles and responsibilities within the team, and the feasibility of the resources listed for project execution.)	responsibilities are unclear, and the resources listed for execution are unrealistic or not defined.	the project is weak; roles and responsibilities lack detail, and resources are not thoroughly addressed.	responsibilities are clear; however, the feasibility of the resources could be improved.	responsibilities are clear, and resources are mostly feasible.	course, roles and responsibilities are well-defined, and resources are feasible and well-detailed.
4	Project Implementation Plan (Examines the realism and clarity of the project timeline and milestones, and the team's preparedness for potential challenges.)	The project timeline and milestones are not clear or unrealistic, and there is no plan for potential challenges.	The project timeline is present but lacks clarity or realism, and the plan for potential challenges is weak.	The project timeline and milestones are somewhat clear and realistic, and the plan for potential challenges is fair.	The project timeline and milestones are mostly clear and realistic, and the plan for potential challenges is well thought out.	The project timeline and milestones are clear, realistic, and detailed, and the plan for potential challenges is comprehensive and well-considered.
5	Project Evaluation and Documentation (Evaluates the plan for assessing the project's success, the commitment of the team, and the quality of documentation and citation in the proposal.)	The plan for assessing the project's success is unclear or not defined, team commitment is not evident, and the documentation is poorly cited or organized.	The plan for assessing the project's success is present but weak, team commitment is questionable, and the documentation lacks proper citation or organization.	The plan for assessing the project's success is fair, team commitment is evident, but the documentation could be improved.	The plan for assessing the project's success is strong, team commitment is clear, and the documentation is well-organized but could use minor improvements.	The plan for assessing the project's success is comprehensive, team commitment is strong, and the documentation is well-cited and well-organized.

Note: Please be aware that a score of zero will be assigned if no submission is made for this required assessment

II. Service-Learning Project Completion Report Rubric – FIO Part 2

	Criteria	Poor (1-2 pts.)	Below Average (3-4 pts.)	Average (5-6 pts.)	Above Average (7-8 pts.)	Excellent (9-10 pts.)
1	Project Summary: (This criterion looks at the completeness, clarity, detail, impact, and presentation of the project summary. The project summary should give a comprehensive overview of the project from beginning to end.)	Project summary is unclear or missing, lacks detail and impact.	Project summary is partially clear but lack detail or impact.	Project summary is clear and impactful but lack detail.	Project summary is clear, impactful, and detailed, but could be better presented.	Project summary are clear, impactful, detailed, and well-presented.
2	Relevance, Alignment with Academic Discipline, SDGs, Analysis, Critical Thinking, and Theory Application: (This criterion looks at how well the report aligns with the academic discipline and Sustainable Development Goals (SDGs). It evaluates the depth and quality of the analysis, the level of critical thinking applied, and the effectiveness of	No clear alignment with academic discipline or SDGs. Analysis is superficial or missing, and there is no evidence of critical thinking. Theory is not applied or is misapplied. Reflection and	Alignment with academic discipline and SDGs is limited. Analysis lacks depth, and there is little evidence of critical thinking. Theory application is sparse or poorly executed.	Some alignment with academic discipline and SDGs, but there are noticeable gaps. Analysis and critical thinking are adequate but lack depth. Theory application is present but could be more robust.	Report is mostly aligned with academic discipline and SDGs, with minor inconsistencies. Analysis is solid and shows good critical thinking. Theory is generally well applied.	Report exhibits strong alignment with academic discipline and Sustainable Development Goals (SDGs). Analysis is robust and demonstrates excellent critical thinking. Theory is accurately and effectively applied.

	the application of course theories. Reports that demonstrate clear alignment, comprehensive analysis, in-depth critical thinking, and effective theory application score higher in this category.)					
3	Evaluation Results (Effectiveness, Intentionality, Efficiency, Authenticity): (This criterion assesses how well the team met the project objectives (effectiveness), how the needs assessment influenced project planning (intentionality), resource utilization and skill development (efficiency), and the project's authenticity and impact on the community. Reports that provide thorough evaluation and strong evidence for these aspects score higher in this category.)	Evaluation results are superficial or absent. No evidence is provided to support claims.	Evaluation results are limited and lack detail in multiple areas. Evidence supporting claims is sparse or weak.	Evaluation results are present but lack depth or detail in one or more areas of effectiveness, intentionality, efficiency, and authenticity. Some evidence is provided to support claims.	Evaluation results are solid and address most aspects of effectiveness, intentionality, efficiency, and authenticity. Good evidence is provided to support claims.	Comprehensive and robust evaluation results are presented, clearly addressing effectiveness, intentionality, efficiency, and authenticity. Strong evidence is provided to support all claims.

4	Lessons Learned (Appraisal of Thoughts and Emotions, The Personal in the Larger Scheme of Things): (This criterion focuses on the reflection on the project's impact on the team members, both emotionally and in a larger societal context. It's a measure of how the experience has transformed the team members' understanding of themselves, their role in Ateneo and society, and their perspectives on the partner community or institution.)	Reflections are superficial or absent. Lessons learned are not identified, and there is no consideration of Ateneo and societal context.	Reflections are minimal or lack depth. Lessons learned are not clearly articulated, and there is minimal consideration of Ateneo and societal context.	Reflections are present but could be more thoughtful or personal for the team. Lessons learned are somewhat superficial, and consideration of Ateneo and societal context is limited.	Reflections are thoughtful, showing the team's personal connection to the project. Lessons learned are relevant, and there is some consideration of the broader Ateneo and societal context.	Reflections are deep, insightful, and show a strong personal connection with the team. Lessons learned are significant and well-articulated, considering the broader Ateneo and societal context.
5	Conclusion (Community Impact, Transference, Recommendations): (This criterion assesses the report's conclusion. It looks at the understanding of the project's impact on the community, how well the report explains the	Poor or no understanding of the project's impact on the community, no explanation of how skills can be transferred to other contexts, and lacks recommendations for future projects	Conclusion is partially complete but lacks depth or foresight and provides superficial recommendations for future projects.	Basic understanding of the project's impact on the community, minimal explanation of how skills can be transferred to other contexts and provides limited recommendations for future projects.	Good understanding of the project's impact on the community, explains how skills developed can be transferred to other contexts, and provides some good recommendations for future projects.	Excellent understanding of the project's impact on the community, clearly explains how skills developed can be transferred to other contexts and provides thoughtful recommendations for future projects.

	transference of skills developed to other contexts, and the quality of the recommendations for future projects. Reports that demonstrate an excellent understanding of community impact, clear transference of skills, and provide thoughtful recommendations score higher in this category.)					
6	Content, Organization, Language, & Formatting (This criterion evaluates the completeness, relevance, formatting, and organization of the references and appendices included. It checks for proper citation according to APA format and the use of appendices for supplementary information that supports the report's content.)	The report lacks necessary detail in multiple sections, and organization is haphazard. Language errors are pervasive, seriously impeding understanding. Formatting is neglected, with little to no adherence to APA guidelines.	Many sections lack necessary detail or are poorly organized. Numerous language errors make understanding difficult. Formatting is inconsistent and often deviates from APA guidelines.	Some required sections may be lacking in detail or may not be clearly organized. There are several language errors, but the overall understanding is not significantly affected. Formatting is generally neat but does not consistently follow APA guidelines.	All required sections are present with minor issues in organization. Language is clear with minor errors that do not affect understanding. Formatting is mostly consistent and professional, with minor deviations from APA style.	All required sections of the report are included and well-organized. Language is professional, clear, precise and free of grammatical or spelling errors. Formatting is consistent, neat, professional and adheres perfectly to APA guidelines.

Note: Please be aware that a score of zero will be assigned if no submission is made for this required assessment.

I. GRADING SYSTEM

A	B+	B	C+	C	D	F
92-100	87-91	82-86	77-81	70-76	60-69	59 below

J. CLASS POLICIES

https://drive.google.com/file/d/1l3ep56yfR5jAuTewoy1r69tib55OuDUn/view

https://www.ateneo.edu/sites/default/files/2024-08/Ateneo%20de%20Manila%20College%20Student%20Handbook%202024%20Volume%202%20%28082624%29.pdf#page=35

https://www.ateneo.edu/college/current-students/handbook

1. Learning Management System. The class will be conducted site and will use Canvas as the official learning management system. Students should be automatically enrolled to our Canvas page once officially enrolled. If you do not know how to use Canvas, consult LS One. Access LS One here: https://sites.google.com/ateneo.edu/ls-one. For Canvas specifically, students may access: https://sites.google.com/ateneo.edu/canvasbasicsbydiscs/for-students/student-modules.

2. Students who require support for Canvas may seek help by sending an email to ls.one@ateneo.edu or chatting with LS-One through that account using their obf email.

3. Student access to the Canvas course will be closed a week after the electronic release of grades for the semester. Students are encouraged to download the course materials as well as the records of their grades before the Canvas course closes.
4. Each class is expected to hold two (2) onsite sessions per week. The weekly onsite sessions are meant to ensure teacher-student presence and live interaction. All onsite class sessions are held during the official schedule of the class. For onsite or online sessions held outside the official schedule of the class, the written consent of the students must be secured and approval from the department chair should be obtained. Any change in schedule should be announced at least one (1) week before the session.
5. Access problems. If you encounter any problems accessing any of the materials concerning the class for any reason, contact the instructor through email or Canvas. I will not entertain queries through social media or any other medium.

Students with no or very unstable internet connections are advised to immediately inform through email or phone call (a) their Chair/Program Director, (b) ls.one@ateneo.edu, and me so that appropriate assistance can be extended, and adjustments can be made. If necessary, portable

learning packets which can be in the form of flash drives or printed materials can be sent to the students.

6. Attendance. Students are expected to attend and fully participate in onsite class sessions so that they enjoy the full benefits of learning. A recording of possible online sessions may be made available for students who are unable to attend a synchronous class.

a. Attending classes regularly is one of the most important obligations of students. These include being present in all scheduled classes, exams, and activities required by the instructor. While attendance does not form part of the student's grade for the course, it is deemed as important as course assessments and other class activities such that students receive a grade of W (Withdrawal without Permission) if their absences exceed 20% of the total number of class hours in an academic term (2021 Revised LS Undergraduate Academic Regulations, Section III, 1.2, 2.2 and Section V 1.2; 2019 Graduate Student Handbook, Section III.B.6). When online sessions are deemed necessary, we may monitor student attendance using Zoom records.

b. In an online setting, students are expected to participate in all course activities, both synchronous and asynchronous. Unstable or irregular internet access and other issues may prevent students from attending synchronous sessions; hence, a W cannot be given on the sole basis of attendance. The essence of the W grade, however, as measuring a student's minimum commitment to a course, should be upheld. A student who fails to effectively commit to the class through submission of requirements may be deemed to have dropped the course.

7. Communication between students and faculty. I will communicate to students using Canvas or email. For more conversations that discuss confidential data, I will email your obf.ateneo.edu account. Please communicate with the instructor during office hours only unless very urgent. Replies may only be expected during office hours. Instructors are expected to be available during the consultation hours stated in the course syllabi. Should this not be possible on particular dates, the student/s and the instructor should agree on a common time for a separate consultation schedule. Students are encouraged to use these consultation hours as an opportunity for discussion about the content and requirements of the course as well as to inquire about their academic standing. Consultation hours are also used to solicit or give feedback on performance in assessments. For the protection of both instructors and students, there should be a third person (e.g., another student or instructor) present during online consultations. The instructor and the student should each give consent for the presence of this third person. If a consultation is to be recorded (instead of having a third person present), the recording must be downloaded, saved in an ADMU GDrive account, and shared with the student unaltered. To maintain the academic nature of online consultations, a family member may not serve as the third person during online consultations.

8. Grades. The final grade will be the one posted in AISIS. Grades reflected on Canvas are not necessarily the official grades for the class.
9. Academic honesty. Procedures involving dishonesty as per the Undergraduate Student's Handbook will be strictly enforced. When in doubt, cite. Submissions found to have at least 20% copied or plagiarized content will be deemed as academic dishonesty. Moreover, these

submissions will automatically receive a zero (0) mark, will not be eligible for any form of resubmission, and a case of academic dishonesty will be forwarded to the Office of Student Discipline. Cases of academic dishonesty committed in major requirements will merit an automatic grade of F for the course.

10. On Using Artificial Intelligence (AI). While the instructor does not discourage students from using AI to aid in doing assessments or activities for this class, the instructor assumes that students that choose to do so understand the repercussions and responsibility attached to using these technologies. When submitting work that uses AI in any manner, students are required to provide a declaration of use at the end of the submitted work that details parts that are AI generated or written, and the AI tools used. Submissions found to have more than 20% AI-generated content as deemed by Turnitin will be deemed as academic dishonesty. Similarly, the lack of an AI-usage declaration when submitted work is found to have AI-generated content, even if less than 20% as deemed by Turnitin, will be deemed as academic dishonesty. Moreover, these submissions will automatically receive a zero (0) mark, will not be eligible for any form of resubmission, and a case of academic dishonesty will be forwarded to the Office of Student Discipline. Cases of academic dishonesty committed in major requirements will merit an automatic grade of F for the course.

Please note that the use of grammar correction software (e.g., Grammarly) is heavily tagged by Turnitin as AI-generated content.

11. Readings. Please read the assigned readings. If you find that you have extra time, read more of the required readings. If you have even more time, then read the suggested readings.

12. Expectations on Study Pacing. We expect that students will work on their readings during the allotted class times per week. Go through the materials at your own pace.

13. Referencing. For written requirement citations, please use the American Psychological Association (APA) format.

14. Getting the readings. Please go through Module 0 of our class Canvas page to learn how to access the readings.

15. Onsite session etiquette. Students and the instructor are expected to fully abide by the health protocols set by the University. Please practice social distancing in class by sitting one seat apart, and do not remove your face masks. If you are experiencing any symptoms or feel unwell, please do not come to class. Send me an email regarding your absence and be sure to report to the Office of Health Services (healthservices.ls@ateneo.edu).

16. Online session etiquette. For online sessions deemed necessary, the default will be microphones on mute (except for the instructors/speakers). Questions should be directed to chat. Students may turn on their microphones if they are recognized by the instructors/moderators. Cameras are kept open during these sessions so that the instructor can receive non-verbal feedback. In case the instructor is disconnected from the synchronous session for more than 15 minutes without having given any reason (e.g., sudden outage of internet connection emergency, etc.), the synchronous session is deemed immediately ended on that day.

17. Group work. I will always assume that the groups are working harmoniously together. If there are serious problems with a groupmate (non-attendance, unprofessional behavior, lack of contribution, etc.), contact the instructor immediately.
18. Personal difficulties. If you are a person experiencing mental, physical, or emotional difficulties or distress, and are comfortable with the idea, please inform the instructor through email so that I may be aware and can adjust if necessary. I will not share your personal information with anyone. I will do my best to indicate if the materials assigned are especially sensitive or disturbing and may cause distress to students who have experienced past trauma. If any material unexpectedly creates a problem for you, please alert the instructor as soon as possible.
19. University Gender Policy. The Ateneo de Manila University does not discriminate based on sex, gender, marital or parental status, sexual orientation, or gender identity or expression. See the following link for more information on the LS Gender Policy: http://www.ateneo.edu/ls/ls-gender-policy.

20. Safe spaces. The course is a safe space and will strictly adhere to Republic Act (RA) 11313 or the Safe Spaces Act. Specifically, it will not tolerate gender-based online sexual harassment, defined by the law as "acts that use information and communications technology in terrorizing and intimidating victims through physical, psychological, and emotional threats, unwanted sexual misogynistic, transphobic, homophobic and sexist remarks and comments online whether publicly or through direct and private messages, invasion of victim's privacy through cyberstalking and incessant messaging, uploading and sharing without consent of the victim, any form of media that contains photos, voice, or video with sexual content, any unauthorized recording and sharing of any of the victim's photos, videos, or any information online, impersonating identities of victims online or posting lies about victims to harm their reputation, or filing false abuse reports to online platforms to silence victims" (Art II, Sec 12). The full text of the law is available online at https://www.officialgazette.gov.ph/downloads/2019/04apr/20190417-RA-11313-RRD.pdf.

21. Class Beadle. A class beadle will be assigned at the beginning of the semester. The class beadle may create and manage alternative platforms for purposes of community and communication between the students. The beadle will serve as a liaison between the class and instructor, remind the instructor to record any online class sessions, and report class concerns about the instructor to the department chair and the School Dean.

21. Fieldwork. The need to conduct off-campus research or fieldwork is necessary for this class. Please secure all the relevant off-campus approvals as stated in the Guidelines for Off-Campus Activities (http://go.ateneo.edu/Guidelines-OffCampusActivities/) in coordination with the Office for Social Concerns and Involvement.

22. Data Privacy. Class materials and recordings of synchronous sessions may not be reproduced, shared, or reposted by students without the express written consent of the teacher. Personal data collected during an online class or other official activity must not be used for personal purposes or reasons. Teachers and students should not post such data on personal social media accounts or use them for other unofficial and unauthorized purposes. Class

materials and personal data (including the files or records that contain them) stored or uploaded to an LMS may be covered by a number of legal or technical requirements (e.g., confidentiality, access restriction, retention, and intellectual property laws). Therefore, publicly disseminating, reposting, or resharing them may be violative of the Data Privacy Act and other applicable laws, regulations, and policies. Extreme care must be exercised when handling them. Consulting the appropriate offices and, when necessary, securing consent or authorization are strongly advised before any of the foregoing actions are taken.

23. LS Academic Policies. For further details and information on the Loyola Schools' academic policies, please refer to the following memorandum from the OADAA: https://drive.google.com/file/d/1tAIlxg586oESyMuH_JPU_yNNSrhUH69a/view.

24. For Students Without NSTP12. As attending community engagements acts as necessary input for SOCSC13 requirements, especially for the Final Integrated Output and the Individual Reflection Paper. All SOCSC13 students are *expected and required* to join the respectively partnered NSTP12 section community engagements. For common concerns regarding the partnership between SOCSC13, NSTP12, and several major subjects, please refer to the following link: https://tinyurl.com/SOCSC13-NSTP12-FAQs.

25. Student Handbook. Please refer to the following link for the student handbook: https://www.ateneo.edu/college/current-students/handbook.

K. CONSULTATION HOURS

NAME OF FACULTY	EMAIL	DAY/S	TIME
Genesis Kelly S. Lontoc	glontoc@ateneo.edu	Monday to Friday	10am to 12 noon

L. CORE CURRICULUM LEARNING OUTCOMES (CCLOs)

Upon completion of the core curriculum, the student should be able to:

1. Demonstrate effective communication skills (listening and speaking, reading and writing) in English and Filipino;
2. Evaluate information and issues in various spheres of life using mathematical reasoning and statistical tools to process and manage data;
3. Propose ways to address pressing social and ecological problems using appropriate critical approaches and scientific methodologies;
4. Develop a creative and moral imagination that is responsive to contemporary global realities and challenges, but also deeply rooted in local histories, conditions, norms, and institutions;
5. Internalize the significance and value of her/his own unique existence and purpose in life in light of the Christian faith;
6. Discern life choices with a keen awareness of ethical dilemmas and considerations;
7. Exemplify a commitment to enhancing human life and dignity, especially of those who are excluded and in greatest need; and,

8. Practice a vision of leadership and committed citizenship rooted in Christian humanism.
